

SCL ONE-STEP- (ITEM CODE: JAN-206)

SEALER & POLISH “IN-ONE”

DESCRIPTION

SCL ONE-STEP is an economical, durable, high-gloss and convenient “all in one” sealer and polish system for vinyl, terrazzo, linoleum, unglazed ceramic tiles, concrete tiles etc.

ADVANTAGES

ECONOMICAL – **SCL ONE-STEP** does the jobs of two products in one, seals and polishes.

EASY APPLICATION – Just mop apply.

SLIP RESISTANT

DURABLE – High resistance to black heel marks and heavy traffic.

EXCELLENT RESULTS when buffed/burnished with machines.

APPLICATION/DIRECTIONS FOR USE

USED ON: Vinyl, Terrazzo, Granolithic Concrete Tiles, Linoleum, Unglazed Ceramic Tiles

1. Clean surface thoroughly using **SCL’S PROTAIN NC**. If there is a residue of polish on the surface, strip away all polish using **SCL’S SPEED STRIP**.
NB: Improper cleaning can result in peeling/flaking of polish.
2. Add **SCL ONE-STEP** to a clean bucket and using a new, damp mop, apply thin coats to the floor. Allow each coat to dry for 15 – 20 minutes before applying a second coat. We recommend that you use three (3) coats, however this may vary depending on the porosity and condition of your floor surface.
3. Wash mop with water.

COVERAGE

One (1) gallon of **SCL ONE-STEP** covers 500 square feet, using the recommended three (3) coats.

MAINTENANCE

For optimum results, floors need regular maintenance.

Dust mop or wet mop with **SCL’S** neutral cleaner, **PROTAIN NC**.

Do not use harsh cleaners or floor strippers to maintain your floors, or this will destroy the gloss and degrade your finish.

Regular buffing with **SPEC BUFF** can be used to rejuvenate gloss.

Or, when necessary, **SCL ONE-STEP** can be used to rejuvenate gloss.

When necessary, **SCL ONE-STEP** can be stripped using **SCL’S SPEED-STRIPPER** or **SUPER-STRIP**.

Revision #05

Dated: July 11, 2023

PROPERTIES

Appearance	-	Milky White /Opaque Liquid
Odor	-	Acrylic Type
Specific Gravity	-	1.035 - 1.045
pH	-	8.0 - 9.0
% Solids	-	24 - 26%

CAUTION

Keep out of the reach of children. Avoid contact with eyes. Do not ingest.

In case of eye contact: Flush thoroughly with water for 15 minutes. Get medical attention if irritation persists.

If ingested: Do not induce vomiting. Consult physician.
